Strata
CIX™

Discover the Power of Toshiba's IP Communication Solutions
Strata CIX40

Big Business Performance At An Affordable Price

Powerful Capabilities for Your Business

Toshiba's Strata® CIX™40 IP communication system puts powerful IP telephony capabilities at your small business, enterprise branch, or retail locations. No matter what size your company is, you need all the edge you can get when it comes to your communications tools.

Your telecommunications system is one of your biggest assets, with the power to attract customers, save money, enhance productivity, and improve customer satisfaction. This is why so many leading companies choose Toshiba. Toshiba's IP communication solutions are designed to drive business process integration and unified communications to create value, efficiency, and maximize return on investment for our customers.

Whether you're just getting started or are growing or adding new locations, communication is key to keeping your customers, employees, and vendors connected. Toshiba offers a full line of Strata CIX communication systems that give you the flexibility to grow, add features, and customize functions as needed. Plus, Toshiba's Strata Net technology lets you network multiple Strata CIX systems, dramatically expanding capacity or improving integration between locations.

Configuration Versatility

The Strata CIX40 is a highly versatile and scalable system designed to give you the ultimate in feature and upgrade flexibility. Configure it as a single site telephone system and add to it as your business grows, or as a branch location networked with other Strata CIX systems.

Toshiba's innovative system architecture allows you to implement an all IP solution, all digital, or a mix of IP and digital telephones that meet your needs. You can migrate to IP capabilities as your organization's needs change.

Powerful Strata CIX40 Capabilities:

- 8, 16, or 24 IP channels for IP telephone connections, SIP Trunking, and/or IP Strata Net multi-system networking
- Add advanced applications as you need them for Unified Messaging, Call Center ACD and Reporting, CRM integration, Voice Logging, Web-based Personal and System Administration, FeatureFlex® feature customization, and Unified Communications
- 4-11 trunks with Caller ID
- 8-16 digital telephones
- 1-2 analog endpoints
- 4, 6, or 8 ports of Voice Mail and Auto Attendant with live message call monitoring, LCD feature prompting, soft keys, call recording and much more
- Fully upgradeable, protecting your technology investment

Choice of Endpoints

Solutions for Every User

The versatile Strata CIX40 supports all types of endpoints and devices, including a complete line of IP telephones, SoftIPT[®] soft phones on notebook computers and smartphones, wireless IP telephones, add-on modules, DSS consoles, attendant consoles, as well as SIP telephones, analog telephones, and Toshiba digital telephones. With the flexibility you want, you can build the communication system you need.

Big Applications for Small Businesses

Integrated Voice Mail

Voice processing applications help you improve customer service by providing callers with instant attention, responsiveness, and access to information.

Capabilities:

- Simplify voice mailbox operation through a Toshiba IP or digital telephone with LCD display and soft keys
- Record calls directly into your voice mailbox with a single button on your telephone
- Communicate effectively both in and out of the office with other employees and customers 24 hours-a-day, 365 days-a-year

Meet-me Conferencing and Collaboration

The Strata Meeting application provides dial-in audio conferencing and web collaboration with Outlook calendar scheduling, desktop sharing, conference recording, usage reporting, and more. It's web-based, so users can attend a collaboration session from anywhere via the network, and dial-in to an audio conference from anywhere via the PSTN. Plus, users' PCs do not require installation of client software—all they need is Internet access.

Strata Messaging

Voice Mail, Unified Messaging, Follow-me, Call Recording, and LCD display and soft key integration applications run on a Linux® operating system-based unified communications appliance that connects via SIP to Strata CIX.

Media Application Server

Toshiba's Media Application Server supports voice processing and all value-added applications integrated within one platform that connects to the Strata CIX via Ethernet.

Applications:

- Auto Attendant
- Voice Mail
- Automated Speech Recognition
- Text-To-Speech
- Unified Messaging
- Fax Integration
- Interactive Voice Response
- Automatic Call Distribution (ACD)
- ACD Reporting
- Toshiba-approved 3rd party Computer Telephony Integration (CTI) and CRM applications
- Strata Call Manager Unified Communications
- FeatureFlex adaptability tools
- Network eManager® browser-based system administration
- My Phone Manager® browser-based personal telephone administrator

Simplify Communications

Ease of Use

Advanced technology shouldn't be complicated. The easier it is to use, the more useful and valuable it becomes. Toshiba makes this concept a driving force in the Strata CIX40, giving you access to powerful, built-in features, yet enabling you to use them all with ease. No complex procedures or extensive training necessary.

- It all begins with the easy-to-read LCD display that makes functions, features, and key information readily-accessible
- Programmable buttons let you assign your own functions based on how you work best
- Thanks to call handling features like Caller ID, you can manage your calls—and your schedule—with ease, deciding which ones to accept now and which to send to voice mail

Build Your Professional Image

Solutions such as Auto Attendant and Voice Mail help you maintain a professional image after hours, or whenever you are unable to answer calls. Let Toshiba's technology work for you as an additional employee.

Money Saving Features

The Strata CIX40 saves you money and improves profitability, and streamlines operations with numerous innovative features, including:

- The ability to restrict long-distance calls or particular area codes
- Automatic call routing over the least costly trunk line or carrier
- Remote programming and testing, making upgrades fast, simple, and efficient

Mobility Lets You Stay Connected

Take productivity to a higher level using wireless IP telephones that operate over your Wireless Local Area Network (WLAN), and enable you to roam anywhere your WLAN provides coverage.

Or use SoftIPT soft phone clients that operate on your notebook PCs or smartphones and enable you to access all the features of your desk phone via your WLAN or from anywhere your company's LAN can be accessed through the Internet.

Feature Highlights

System Features

- Account Codes
 - Forced
 - Voluntary
 - Verifiable
 - Account Code Button
 - Account Code Revision
- Administration/Programming (Optional)*
 - Live System Programming
 - Remote Access
- Alternate Answer Point
- Automatic Busy Redial
- Automatic Call Distribution (Optional)*
 - Advanced Call Routing
 - Skills-Based Routing
 - Priority Queuing
 - Multiple Group Agent Login
 - Call Recording
 - Voice Assistant ODBC Database
 - Text-To-Speech
 - MIS Interface (Optional)*
- Automatic Callback Intercom
- Automatic Dialing Buttons
- Automatic Hold
- Automatic Hold/Park Recall
- Automatic Line Selection
- Automatic Release From Hold
- Automatic Release From Voice Mail
- Auxiliary Device Interface (Optional)
- Background Music Interface with Station Control*
- Busy Override
- Busy Station Transfer/Ringing
- Call Forward
 - All Calls
 - Busy
 - No Answer
 - Busy/No Answer
 - Fixed
 - External with Remote Setting
 - System-wide
- Call Park to Station
- Call Park Orbits
- Call Pickup
 - On-Hold/Park
 - Ringling At Other Stations
 - Meet-Me Page
 - Directed
 - Station Group
 - CO Line Group
- Call Record to Voice Mail
- Call Transfer
 - Camp-On
 - External Calls
 - Internal Calls
 - Recall
- Call Waiting
- Caller Identification
 - Abandoned Call History
 - Call History List
 - Redial from List
 - Indication While Busy
 - Internal User Name
- Centrex Application/PBX Compatibility
 - Centrex Ringing Repeat
 - Flexible Station Numbering
 - Delayed Ringing
 - One-Button Centrex Feature Access
 - Centrex/CO Line Call Pickup
 - Centrex/CO Line ID
 - Flash Button
 - Multi-Line Access and Control
- Class of Service Override
- CO Line Groups
- CO Line Queuing
- Conferencing (8 party)
 - Multi-Stations
 - Multi-CO Lines
- Continuous DTMF Signal Time
- Credit Card Calling ("O"+ Dialing)
- Day/Night Modes with Auto Switching
- Delayed Ringing
- Direct Inward System Access
- Direct Station Select/Busy Lamp Buttons
- Direct Station Selection Console (Optional)
 - All Call Voice Page
 - Automatic Line Hold
 - DND Status Indication
 - DND Override
 - CO Line Button Assignment
 - Expanded Line Appearance
 - Multiple DSS Consoles
 - Night Transfer
 - Speed Dial Button Assignment
 - Voice or Tone Signaling
- DISA Security Code Revision
- Distinctive LED Indicators
 - I Called
 - I Hold
 - I Use
- Distinctive Ringing
- Do Not Disturb
- Do Not Disturb Override
- Door Lock Control
- Door Phones
- DTMF and Dial Pulse Compatible
- DTMF Signal Time (160/80 ms)
- Dual Color LEDs
- End-to-End Signaling
- Exclusive Hold
- Executive Override (Break-In)
- Executive Override Blocking
- External Amplified Speaker (Optional)
- Flash Button (Centrex/PBX Transfer or CO Dial Tone Recall)
- Flexible Access Code Assignment
- Flexible Button Assignment By User
- Flexible Station Numbering
- Flexible Line Ringing Assignment
 - Delay 1
 - Delay 2
 - Immediate
- Group Paging
- Handsfree Answerback Intercom
- Headset Interface*
- Hearing Aid Compatible
- Hot Desking
- Hotel/Motel Features*
- Hot Dialing
- Hotline Service (Emergency Ringdown)
- LCD Alphanumeric Messaging

 - with Message Waiting
- Speed Dial
 - Station
 - System
- Station Hunting
- Station Message Detail Recording
 - Interface (Optional)
- Survivability of IP Telephones*
- System Maintenance
 - Error Logs
 - Automatic Fault Recovery
 - Maintenance and Administration via LAN

Feature Highlights

- System Administration Logs
- System Trace (Multi-level)
- SNMP Traps
- System Alarms (eMonitor)
- Traffic Measurement and reporting
- System Program
 - Upload/Download*
- Tandem CO Line Connections
- TAPI Compliant
- Tenant Service
- Toll (Destination) Restriction
 - Restriction Override
 - Restriction Override Revision
- Transfer Privacy
- Traveling Class of Service
- Uniform Call Distribution (UCD)
- User Programmable Feature Buttons
- Voice Mail Integration
 - Call Record to Voice Mail
 - In-band DTMF Signaling
 - LCD Soft Key Voice Mail Control
 - Transfer Direct to Voice Mailbox
 - Voice Mail Conference
- Voice or Tone Signaling
- Volume Control
 - Busy Override Tone
 - Handset
 - Handsfree/Speakerphone
 - Ringing

Voice Mail Features

- Audio Prompts
- Automated Attendant (AA)
- Automatic Message Copy with Optional Delete
- Called Identification (Name)
- Caller ID (Number)
- Caller Confirmation Prior to Transferring
- Call Monitor and Retrieve
- Call Record to Mailbox
- Call Queuing
- Call Screening
- Copy Mailbox
- Copy Range
- Directory
- Direct Transfer to Voice Mailbox
- Disk Space Notification
- Distribution Lists
- Do Not Disturb (DND)
- Extensions—Scheduled
- Fax Tone Detection
- Future Delivery
- Guest User Mailboxes
- Independent Port Greetings Mailbox
 - Function Lock
 - Groups
 - Security Code
 - Personal Greetings
 - Time Zone Setting
- Mailbox Number—Varied/Fixed Length
- Message
 - Continuous Delete
 - Continuous Playback
 - Date and Time
 - Forwarding
 - Notification
 - Pause During Playback
 - Pause During Recording
 - Playback Control
 - Private
 - Purging
 - Reply
 - Retrieval Control
 - Return Receipt Verification
 - Speed Control
 - Urgent
 - Volume Control

- Message Storage
 - Personal Folders
 - Message Queues

*** SIP Trunks available with selected carriers.

Toshiba Authorized Dealer Network

Toshiba Telecommunication Systems Division sells award-winning IP communication solutions, IP and Digital telephones, video collaboration tools, office mobility products, and voice mail systems through our Authorized Dealers. Toshiba Dealers focus on providing the best possible customer experience. With over 40 years of experience, Toshiba's Telecommunication Systems Division and our authorized dealer network can provide your business with world-class IP communication solutions.

Fulfilling Our Responsibility as a Global Enterprise

Toshiba is committed to playing a leading role in helping establish a sustainable society. At Toshiba, we recognize the Earth is an irreplaceable asset, and we believe it is the duty of humankind to hand it over to future generations as we found it, if not in better condition. Accordingly, Toshiba promotes solid environmental management practices across all our products and business processes focusing on: prevention of global warming, control of chemical substances, and efficient utilization of resources.

At Toshiba, we are very proud of our commitment and our ongoing activities to help protect the environment. We firmly believe in the importance of a commitment to environmental excellence as well as a clear understanding of how our environment is affected by what we do. With this in mind, Toshiba strives at all times to create products that will have minimal environmental impact throughout their lifecycles. Toshiba's products passed a rigorous environmental performance survey, and we're proud to offer them to you as part of our Green-compliant portfolio.
