Hosted VoIP Solutions

With the continued convergence of data, voice and video, and the impact of the internet, the communications industry has presented increased Business VoIP opportunities. Delivering rich media content over your unified communications platform are proven business drivers and efficiency enhancers.

What is Hosted Technology?

By definition, a Host takes care of their guests. We have made it possible to accommodate your equipment and phone system in an electronic internet "cloud" with our voice experts proudly caring over it. This leaves you with no headaches, premium call quality, and a much lower electricity bill. We have the best equipment, robust network and dedicated technicians. It would be our pleasure to have you as our guests!

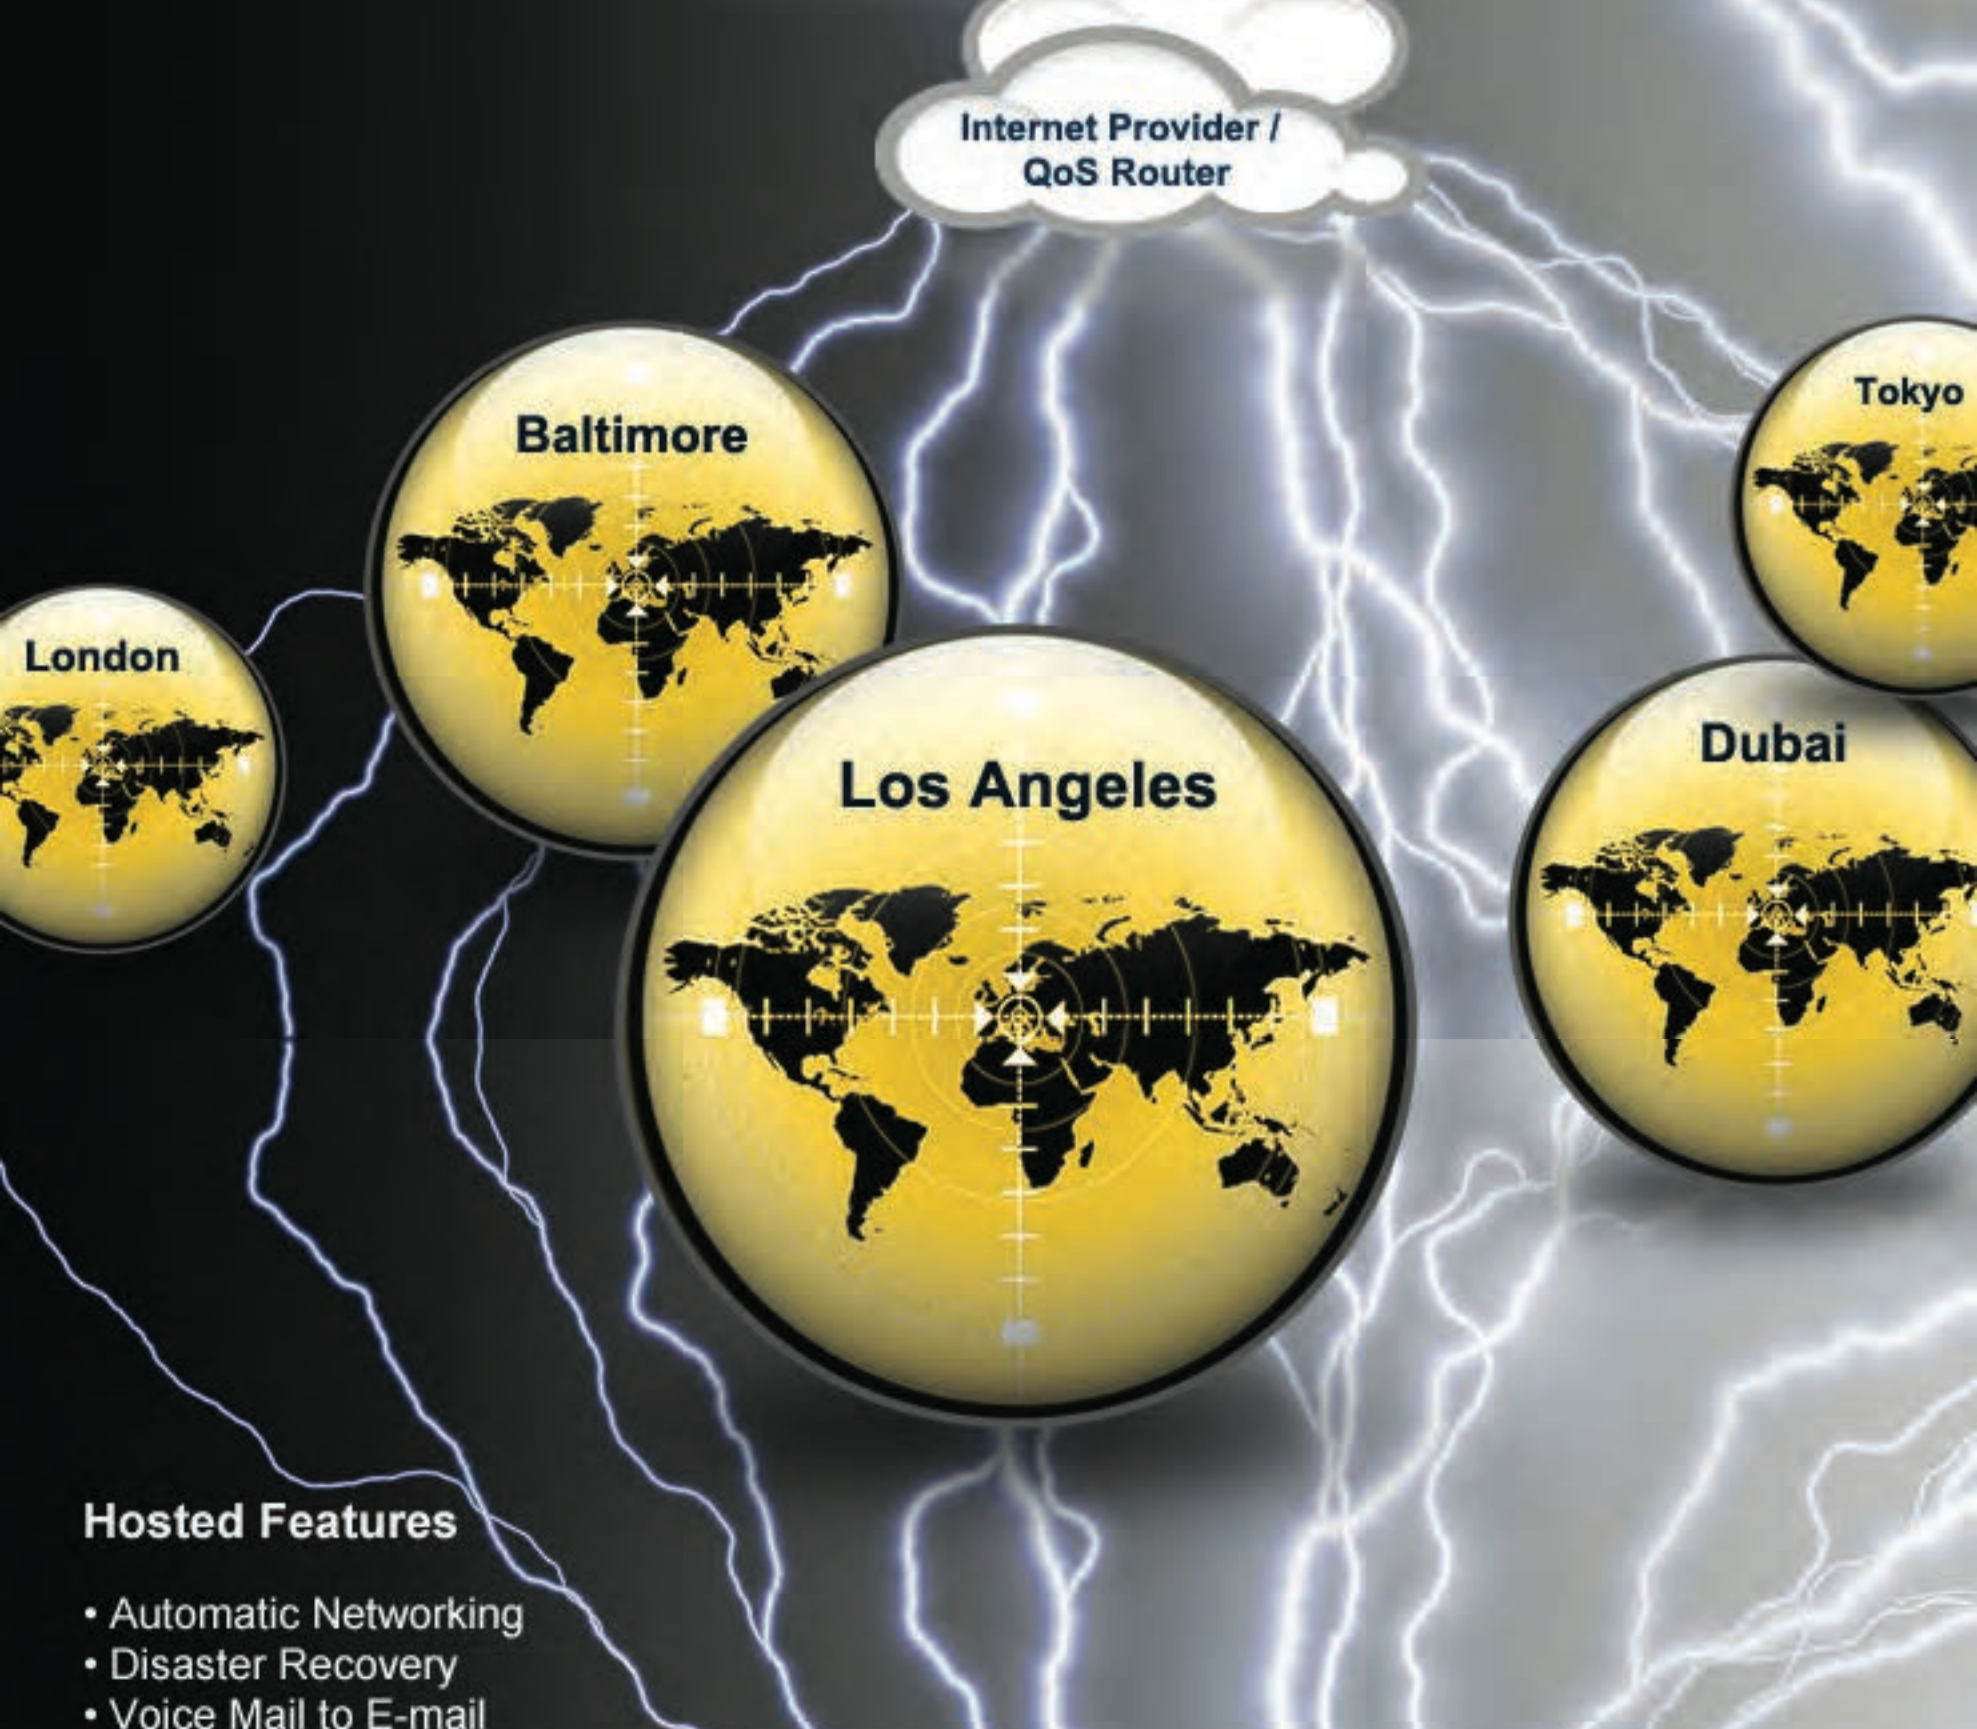

Cost Saving Benefits:

- Reduced Phone Bill
- Maintenance & Warranty Coverage Included
- Software Upgrades Included
- Budget Friendly / Consistent Monthly Invoice
- "Green" Technology- Reduce Space & Power
- Experience Efficiency & Productivity Gains
- Automatic Networking of all Locations- including Remote Users

Hosted Secure Personal Portal & Call Reports

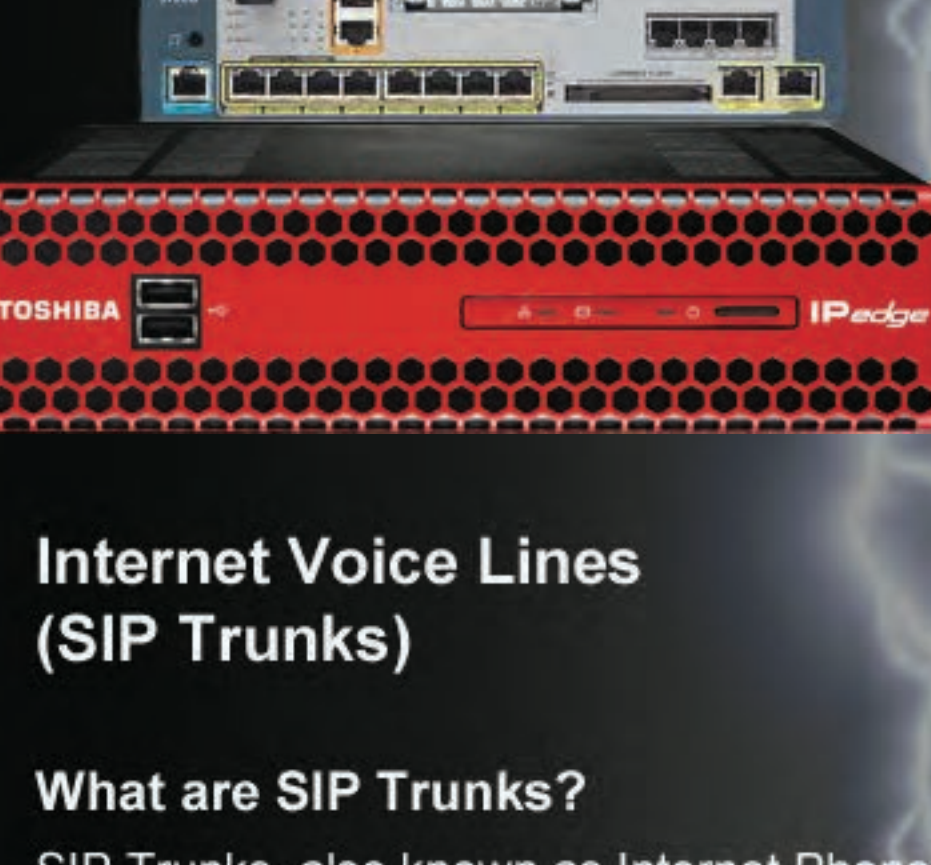

ACC Advantage Rental Program

In addition to Hosted Solutions, ACC Telecom offers total solution packages for Toshiba & Cisco PBX Phone Systems.

Now you can rent your Toshiba or Cisco PBX for one low monthly cost. Add SIP Trunks (internet voice lines) for additional savings.

Like Hosted, ACC Advantage, includes equipment, maintenance and warranty coverage for no extra cost.

Internet Voice Lines (SIP Trunks)

What are SIP Trunks?

SIP Trunks, also known as Internet Phone Lines, are robust business Voice Over IP (VoIP) call paths.

SIP (session initiation protocol) is a premium VoIP service, delivering rich, high definition sound quality by utilizing your pre-existing or brand new phone system (PBX).

Benefits of SIP Trunks:

- Save up to 40% on your Phone Bill
- Unlimited Nationwide Calling including Canada
- Disaster Recovery- Never Lose a Call
- Network Continuity
- New DIDs, Toll Free Numbers & LNP
- Mobility: Use your IP phone anywhere while keeping your existing phone number / Caller ID.
