

NETWORK YOUR OFFICE LOCATIONS

Communication between offices and remote workers has never been easier. With VoIP phone system technology, your offices and remote users are networked under one phone system, saving both time and money.

WHY VOIP?

- Save up to 60% over traditional phone lines
- Save office space with a virtual phone system
- Network your office locations, reducing time and money
- Flexible & Easy to Manage
- Easily Expandable & Moveable
- FREE Software & Feature Upgrades
- FREE Help-Desk Support
- FREE Maintenance Warranty

HOSTED PBX FREE TRIAL Try-the-Cloud-Free Guarantee

Companies interested in experiencing the superior call quality and advanced features of a Hosted (Virtual) Phone System will have a total of ten calendar days to make and receive calls as well as utilize the Hosted VoIP portal and specified calling features discussed with an ACC Telecom Account Manager. We encourage the VoIP user to use the issued SIP device in multiple locations where high speed internet access is available to experience the mobility benefits of a Hosted phone system and SIP technology.

Contact ACC Telecom to start your free, no-obligation Hosted phone system trial.

CUSTOM SOLUTIONS

Design your phone system *your* way. Choose the features and applications that work for your budget, with the ability to increase or decrease features immediately based on the needs of your business.

SECURE USER PORTAL

Even though we are happy to manage your system for you, you also have the power to make changes online within your own personal portal. Add a phone line for the holiday season, change your greeting, enable call routing, and much more.

Bonus: Monitor voice usage with your Call Accounting package that is included with every system. Run detailed call reports, view usage graphs, and concurrent call paths.

FEATURES & APPLICATIONS

- Unlimited Nationwide Calling
- Secure Personal Portal
 - System Management
 - Call Accounting Reports
- Unified Communications
 - Voicemail & Fax to E-mail
 - One-Number Follow-Me
- Advanced Feature Set
 - Conference Bridging
 - Contact Center Applications
 - Music on hold
 - On- Demand Virtual Paths & more
- Automatic Mobility & Remote Usage
- Disaster Recovery
- Business Continuity
- Operator Console

Hosted (Cloud-based) Phone System

Let us host and care for your phone system- one less concern for you and your business.

By definition, a Host takes care of its guests. We accommodate your equipment and phone system in an electric internet “cloud” with our voice experts proudly caring over it. This leaves you with no headaches, more office space, premium call quality, and much lower monthly phone bills and phone closet electricity costs. We offer the best products, a robust network, and dedicated technicians.

It would be our pleasure to have you as our guest!
