

# ACC SIP Trunks

GEO-REDUNDANT VOICE OVER IP

**3CX**

**PLATINUM PARTNER**  
IP BUSINESS PHONE SYSTEM

***“By switching to ACC Telecom’s SIP Trunks and 3CX, we saved over \$100,000 on our telecom costs over a five year period!”***

***--Elizabeth Hymel, CEO, Thrive Behavioral Health***

Specially designed for IP phone systems, ACC SIP Trunks are a business-class form of Voice over IP (VoIP) service that utilizes a Broadband connection and your IP phone system for access. As a SIP Trunk provider, SIP allows us to packetize and prioritize voice traffic over digital circuits, offering higher quality and more reliability than standard VoIP service.

Session Initiation Protocol (SIP) is typically more cost effective and scalable than traditional phone service alternatives. And with our geo-redundant platform and failover features, you can rest assured that you’ll always be accessible no matter where business may take you.

- ◆ 40-60% Savings over Traditional Phone Service
- ◆ Unlimited Nationwide Calling (+Canada)
- ◆ Geo-Redundant
- ◆ Disaster Recovery/Failover
- ◆ Enterprise-level Call Routing Options
- ◆ High Quality, Reliable Voice Calls
- ◆ Call Reporting & Monitoring Features
- ◆ No PBX SIP Trunk Licensing Fees
- ◆ Scale SIP Channels Up or Down Instantly
