

vFax Virtual Faxing Solutions

Faxing of the Future

Virtual faxing has revolutionized the faxing industry. With its astronomical cost savings and mobile convenience, faxing has never been easier, more flexible, or more reliable-- boasting a 99.9% success rate (even on large faxes). Whether your fax document contains dense text with embedded images or is being sent as a Word doc, PDF or JPG, you can choose your faxing method- over the Internet, from an email account or from our standalone desktop client that converts your existing fax machine from analog to IP.

- Private & secure
- Unlimited faxing options
- Nationwide coverage
- Works with traditional fax machine when bundled with our Fax ATA device adapter
- Keep your existing fax number or choose a new one from our inventory
- Send/receive faxes anywhere in the world with internet access and a web browser
- Receive confirmation email of fax delivery

vFax Solutions

Email-to-Fax Service

Send and receive faxes directly to your email account with our Email-to-Fax service. Simply

compose an email and address it to 10-digit-fax-number@emailyourfax.com. Our Email-to-Fax service supports up to 5 attachments in various formats, such as JPG, PDF, Adobe PostScript, TIFF, Microsoft Word, Excel, CSV, HTML & Plain Text. Upon submission our system will reply with a confirmation or rejection notice. Additionally, your fax history is conveniently stored in your personal user portal.

ATA Fax Machine Hybrid Adapter

We understand traditional fax machines are still a critical component of many businesses, which is why we offer our ATA Fax Enable Adapter to provide businesses with the flexibility of standalone machine use coupled with virtual desktop faxing components. Our ATA hybrid adapter allows you to deactivate your analog fax phone line and start sending faxes through the cloud using your existing fax machine equipment. ATA device users enjoy the flexibility of using their existing fax machine while adding the following modern features:

- Fax using existing fax machine
- Send & receive faxes via e-mail
- Send & receive faxes via online portal
- View complete fax history in web portal
- Add & remove users via web portal

Personal Fax Portal

vFax customers enjoy a private and secure faxing portal to send/receive fax messages, view fax history, add contacts, compose cover pages, and manage internal users anywhere there is an Internet connection.

The screenshot shows the FAX CENTRAL Personal Fax Portal interface. At the top right is the FAX CENTRAL logo. Below it is a navigation bar with icons for Home, View Faxes, Send a Fax, Sent Faxes, Fax Numbers, My Contacts, and Support. A 'Quick Links' dropdown menu is set to '-- Select --' with a 'go!' button. A welcome message states 'Welcome 38 new messages.' and a 'logout' link. The main content area features a globe icon with an arrow and gear, followed by a welcome message and a link to view 38 new messages. A 'Suggestions' section has a text input field and a 'go!' button. The 'Quick-fax' section includes fields for 'To:', 'From:', 'Fax File:' (with 'Choose File' and 'No file chosen' buttons), 'Email Notification:' (with a checkbox and dropdown), and a 'CallerID:' dropdown. A 'go!' button is at the bottom of this section. On the right, a sidebar lists 'FOLDERS' (Inbox (38/38), Sent), 'FUNCTIONS' (Send a Fax, Quick Send Fax, My Contacts), and 'ACCOUNT RELATED' (Fax From Emails, Post Notification Email, My Fax Numbers, Change Password, Support, FAQ, Log Out).
